

## Vocollect SRX2

### Wireless Headset

The Vocollect SRX2 wireless headset sets the standard for voice worker ergonomics enhancing the worker experience by providing the most comfortable wireless headset option available. When combined with Vocollect SoundSense voice recognition technology, the SRX2 wireless headset offers unmatched accuracy.

The innovative component design enables shared use of electronics, while preserving individual worker hygiene through the use of individual headbands, reducing both the up-front cost and the ongoing cost of ownership. The Advanced Speech Recognition Protocol ensures zero loss of speech and audio information, thus providing the highest levels of accuracy and worker performance.

## Setting a Higher Standard for Wireless Headsets

### Superior Speech Recognition with SoundSense Technology

The Vocollect SRX2 wireless headset provides an embedded multi-microphone array to reduce unwanted word and sound insertions by more than 50% compared to other headsets used in the distribution center. It uses high fidelity acoustic sampling for higher audio clarity.

### Innovative Shareable Component Design

The ground-breaking shareable component design of the Vocollect SRX2 wireless headset provides management and workers the ultimate wireless headset solution without compromise. For management, the SRX2 offers their workforce an industry leading solution with the greatest operating performance capabilities while offering the business a reduced investment option. For the worker, the SRX2 wireless headset provides the most comfortable and ergonomic wireless headset option available (including our 280° spin design).

### A Wireless Headset Solution for All Environments

The Vocollect SRX2 wireless headset provides the ultimate in operating environment flexibility. It is designed and certified to operate in every high noise environment, from dry to cool to freezer. It also provides great battery performance, lasting up to 10 hours in the challenging freezer environment (operational to -22°F and up to 20 hours in dry environments).

# The Leading Wireless Headset for the DC

Advanced Speech Recognition Protocol ensures zero loss of speech and audio information, unlike consumer Bluetooth headsets, in order to provide the best voice interaction experience, even in highly congested environments.

Padded headband with 280° spin for multiple levels of user adjustment helps improve overall user comfort.

Self-evident user controls for quick training and enhanced usability.

Compact batteries that last two full shifts in dry facilities and up to 10 hours in a freezer environment with intelligent battery management that predicts battery life.

Flexible multi-microphone boom for left and right ear configurations for enhanced user comfort.

Hygiene and health-centric design with personalized headbands and microphone caps.

Cupped headband\*. Allows worker to hear voice directions clearly and reduces noise to permitted levels.

Hard hat earcup\*. For when workers must wear a hard hat as a safety requirement. Provides about 10dB ambient noise reduction.

*\*Requires SRX2 electronics module and battery*

## Vocollect SRX2 Technical Specifications

<b>Low Operating Temperature:</b>	-22°F (-30°C)	<b>High Operating Temperature:</b>	122°F (50°C)
<b>Low Storage Temperature:</b>	-40°F (-40°C)	<b>High Storage Temperature:</b>	158°F (70°C)
<b>Water &amp; Dust Resistance:</b>	IP-54	<b>Humidity:</b>	5%-95% condensing
<b>Microphone:</b>	Sealed, noise canceling	<b>Drop Resistance:</b>	24 drops from 6 ft. (1.83 m) at low and high operating temperatures
<b>Weight with Battery:</b>	6.84 oz. (194 g) with stability strap	<b>Battery:</b>	High performance battery. Typically provides 10-20 hours of service
<b>Cupped Models:</b>	Provides about 10dB ambient noise reduction	<b>Bluetooth Version:</b>	v2.1

## About Honeywell

Honeywell is a leading provider of innovative voice technology solutions, helping companies with mobile workers run a better business with voice. Every day, our Vocollect voice solutions enable nearly one million global mobile workers to move \$5 billion worth of goods and annually saves companies more than \$20 billion. Together with a global team of over 2,000 certified professionals, Vocollect solutions enable companies to further optimize operations, improve business decision capabilities, and deliver the industry's premier worker experience in challenging industrial environments. Vocollect integrates with all major WMS, ERP, material handling systems and maintenance & inspection systems and supports the industry's leading mobile computing devices.
